At Official Opening

Mayor, Reeve ask support of school referendum

A milestone in the field of education in White Rock was reached Friday night, when this area's first Junior High School was officially opened by Mayor William Hodgson.

The beautifully finished, and well equipped school, one of six such junior high schools in School District No. 36, was visited by a large crowd of parents and interested residents.

Both Mayor Hodgson and Surrey Reeve Robert Nesbitt emphasized the need of residents in School District No. 36 lending their weight to the referendum to be placed before the taxpayers shortly which, if successful, will result in the construction of a number of other much-needed school buildings.

Mayor Hodgson stated the children of this area were indeed fortunate to have such a fine school building.

Reeve Nesbitt, in his opening remarks, praised the School Board of District No. 36 who worked so tirelessly for the youth of the district without any remuneration for their services.

School Trustee for White Rock, Mr. Jack Burrows, introduced Mayor William Hodgson.

Mr. P. Coyne of the construction firm, turned the school's keys over to School Board Chairman William Beagle. Mr. Beagle handed the keys to the school principal Mr. William Davidson who then introduced his competent staff.

Other dignitaries on hand for the opening were Mrs. R. C. Beattie, president of the Surrey PTA Council, Mr. K. B. Woodward, District Superintendent, Mr. Hal ... president of the Surrey Association and Senator Tom Reid.

Pupils of the school provided entertainment with musical selections, dance numbers and a piano solo following the official opening ceremony.

Around the world in 1½ days, Rotary told

At Lewis, traffic representative for Trans Canada Airlines, was guest speaker at White Rock Rotary luncheon Tuesday at the Silver Moon.

He spoke on "TCA enters the jet age."

Introduction of air travel changed the world's economic, political and social life, the speaker said.

He stated TCA has ordered 56 DC8's the newest of which will cruise at 590 miles per hour. They will cost at least \$4 million dollars each.

Jet air travel makes the world 40 percent smaller and it takes only a day and a half to travel around the world instead of the 80 days of Jules Verne, Mr. Lewis said.

Girl remanded here on charges of obstructing officer, disturbance

An 18 year old White Rock girl has been remanded for one week on two charges of obstructing a police officer and creating a disturbance.

Audrey Drope appeared before Magistrate S. H. Gilmour in police court Tuesday and was remanded until defence counsel has been appointed.

The girl is charged with obstructing RCMP Constable G. M. Bell on Sunday, September 27 and creating a disturbance.

Magistrate Gilmour remanded the case after city prosecutor Galt Wilson informed him the Law Society was obtaining counsel for the girl.

The Magistrate said he would not remand the girl in custody as she had already been held by authorities for 10 days. His Worship set bail at \$50 and placed the girl in her mother's custody.

Magistrate Gilmour dismissed a charge of parking in a crosswalk after hearing the accused, Murray Webb, defend himself in court Tuesday.

Webb told the court he did not block the crosswalk at Keil and Campbell River Road but just stopped briefly to pick up his sisters from the theatre.

Magistrate Gilmour said the city bylaw was not intended to be enforced in cases such as this. He termed the offence "very minor" and said he felt a charge should never have been laid.

Mayor William Hodgson officially opened White Rock Junior High School Friday and joined with Reeve R. Nesbitt in urging support for the forthcoming school referendum. Others in the picture are (from l to r) School Board Trustee Ed Newmann, School Board Secretary Don

Christian, Board Chairman William Beagle, White Rock's representative on the Board of Education, and F. W. A. R. of White Rock First Church.

Two added for summer RCMP; second police car to be permanent

Two additional RCMP officers and a second police car will be added to the White Rock RCMP detachment during the period from May to September in 1960. The extra police car will be kept in service here throughout the year.

Decision was unanimous at Council meeting Tuesday night following a report from Inspector W. H. Hurlow of New Westminster pointing out that the nature of the area and the type of individuals drawn to the resort city on summer weeks necessitated extra police protection.

Inspector Hurlow pointed out that reports have reached him from very responsible White Rock residents stating they would not dare go out on the street after 10 p.m. on a summer Saturday night.

The many investigations made by your RCMP officers, and the many complaints received speak for themselves," the inspector stated.

More foot patrols will also be implemented, inspected Hurlow reported.

The geographical aspects of the city necessitated an extra police car and additional patrolling during the months of the summer influx, as the present RCMP officers can only police one area at a time, the inspector pointed out.

UGN has reached 5% of quota

White Rock and district United Good Neighbour canvassers have reached five percent of their objective.

Divisional chairman Galt Wilson reports donations are being turned in steadily but more funds will be needed this year because of the added agencies which will benefit from the campaign.

Wilson points out that the overall objective has been raised this year to \$10,400 as compared with \$8,000 for this area last year.

Canvassing of the business districts is continuing.

City stop signs allotted \$1,000

City council has voted \$1,000 to be used for the erection of stop signs on through streets within the city.

Ed Irwin, head of the traffic and lighting committee, reported he had drawn up a plan that would attempt to provide stop signs for all needed areas beginning at Bergstrom Road and working east. The work will be carried out progressively.

Works Superintendent Bob Howse and Ald. Irwin will work on the project jointly, giving first consideration to through streets.

Max Zack, Official Observer

Council upholds stop work order

A stop work order placed on an apartment block being constructed in White Rock has been upheld by city council.

Council supported the action of building inspector A. F. Everall after it learned that construction was being carried out contrary to the National Building Code.

Everall pointed out that the order on the block constructed by V. C. North after he was informed on his rather hasty construction.

Maddox attempted to convince council that the proposed apartment was actually a two storey construction with basement and penthouse, and not a three storey structure as Council claimed.

The National Building Code calls for at least three storeys to be of concrete construction, but Maddox proposed to use frame on his proposed

apartment block to contain fourteen suites. Council felt that to amend the building bylaw to convenience this particular request would be establishing a precedent and in future other requests of a similar nature would be received.

Everall pointed out that he had given verbal agreement to the apartment's construction on the basis of a one-foot recess basement plan which had been submitted to him, and which he approved, but he pointed out to Mr. Maddox that no permit could be issued until the entire proposed structure conformed to the National Building Code, which in the case of a three storey apartment calls for concrete construction.

Everall stated the plans did comply with the Code's stipulations in every other detail and as far as he was concerned frame construction was of adequate strength. The stucco and frame construction planned for this case, complete with its aluminum foil insulation would constitute a three quarter hour rating according to fire regulation standards, he said.

Ald. Sid Fennell pointed out that the stringent stipulations would force investors away from the city. Ald. Max Zack contended he would rather see a few well built apartments in the city than those that would be of sub-standard quality.

Everall assured Council the proposed construction was not sub-standard.

The question of safety in the event of fire caused Council considerable concern. Members decided to contact the Fire

Marshall's office and Fire Underwriters' Association regarding their requirements in regards to apartment dwellings before a decision is made.

Council invests in Can. Bonds

City council voted to invest the city's \$70,000 on hand from the arbitration settlement, in Canadian Government Treasury Bonds for a three year period at 5½% interest.

Mayor William Hodgson reported he had received verbal assurance from Dr. H. K. Kennedy, that the council could have the use of the Centennial Health Centre for city hall purposes for at least three years, so the \$70,000 would not be needed for the erection of a city hall until after that period.

A portion of the arbitration money has been invested in the city's road construction program. This sum, when paid back to the fund can then be invested in a similar way if council so desires, the mayor pointed out.

Leaky gas main is emergency

A leak in a main shaftoff gas valve caused White Rock Fire Department officials a few anxious moments Monday evening.

The Pacific and Johnston Road district on Hilltop was treated as an emergency area by Fire Chief C. W. Pollard after residents reported to RCMP there had been a natural gas smell throughout the day.

The RCMP contacted Pollard who believed there was a natural gas leak coming from a pipe on Hilltop which could have resulted in a dangerous explosion.

Pollard sounded the alarm and instructed fire fighters to take emergency precautions.

Further investigation revealed the gas was leaking from a main shaftoff valve at Johnston and Pacific.

B.C. Electric emergency crew was called and reported there was no immediate danger. The crew repaired the leak later that evening.

The Fire Department was called out Saturday evening to enter a small shack on Washington Avenue just east of Vidal Street caught fire. Loss was estimated at \$50.

It is believed the blaze was started by children playing in the neighborhood.

Chief Pollard reported later that adjoining buildings with fireproof masonry walls proved a great deterrent to the possibility of the fire spreading.

Beach Improvement Association to meet

White Rock Beach Improvement Association will hold its first meeting on Thursday, Oct. 15 at 8 p.m. at the home of N. J. Lowsky, 14146 Marine Drive, directly opposite Bishop Road.

Many White Rock residents representing varied vocations have already indicated their eagerness to participate in this Association.

The organization has been set up by Tom Irwin and Nestor Browsey of the White Rock Board of Trade's beach committee.

The Board decided at its last meeting that a separate Beach Improvement Association be

formed to concentrate solely on formulating a definite plan for the betterment of the entire bay area.

The Association will investigate formation of a sandy beach that would provide sand areas above high tide, establishment of a marina and a possible one-way drive south of the GNR tracks with parking facilities for over 1,000 cars.

Anyone interested in such a project is urged to attend this meeting. All ideas will be welcome and those with architectural, park planning or engineering experience will be very welcome, officials report.

George Thrift, White Rock pioneer dead at 82; funeral service on Friday

Last rites will be held Friday from Chapel Hill Funeral Parlour for a member of a White Rock pioneer family who passed away on October 6.

George M. Thrift, who came to White Rock with his family 76 years ago, was born in Barrie, Ontario. Mr. Thrift, who resided at 1282 High Street, was 82 years of age.

He operated one of the first real estate businesses here and the name Thrift Realty was retained by preceding owners long after the White Rock pioneer retired.

Mr. Thrift was the son of the late Henry Thrift whose name has been chosen for the

new elementary school opened this year at Rankin and Oxford. Thrift Avenue was also named after this pioneer family.

Mr. Thrift is survived by his wife, three sons, George of Edmonton; Ernest of White Rock and Harold of Richmond; one daughter, Mrs. H. Turgeon, Hinton, Alberta; two brothers and five sisters.

Funeral service will be held at 1:30 p.m. from Chapel Hill, 14615 North Bluff under the auspices of Joppa Lodge No. 112 A.F. & A.M. of which the deceased was a member. Interment will be at Hazelmere Cemetery.

New plan for Sundays, United Church says

The Session of First United Church in White Rock has planned to have for this Sunday, and the next two Sundays a more informal evening fellowship in place of the regular Sunday evening service.

Friends are invited to come along at the usual evening hour 7:30 p.m. when brief informal service will be held in a party which will include one of popular hymn sing-

This will be followed by a social hour in the Church Lounge when refreshments will be served, and an opportunity given for friends to visit together.

This Sunday a series of lovely colored slides will be shown by the Minister, Rev. A. R. Laing, of his recent vacation trip which he is calling "From Coast to Coast." Each Sunday evening during this series

friends will show pictures of their 1959 vacation trips in Canada, the States and Overseas.

Plans are now well in hand for four musical services to be held again on the Sunday evenings of November when several well known singers will be taking part. These services proved so popular last year and there have been many requests for them to be held again. Mrs. Grace Wallace will be bringing a party of soloists to one evening, and among those coming during the month will be Bruce Kennedy, well known bass singer, Eleanor Collins of TV fame, and the Welsh tenor Taffy Williams. Both the senior and junior choirs will be arranging an evening during the month.

Thanksgiving Service Sunday

This Sunday the First United Church in White Rock will hold their Thanksgiving Service at 11 a.m. when the Minister, the Rev. Alfred R. Laing, will preach on "The Grace of Giving," and the senior choir will render special anthems under the direction of their choir-mistress Mrs. S. Turnbull. The soloist is Mrs. Bert Mansfield who will sing "Green Pastures." Friends are invited to bring or send Thanksgiving gifts of fruit, vegetables, and flowers to the Church either on Saturday morning or afternoon or bring them Sunday morning to Church. Tinned good etc. will also be most acceptable as afterwards the gifts will be sent to United Church Home for Girls in South Burnaby.

Young Lutherans to 'canvass'

The young people of Zion Lutheran Church, Cloverdale, will conduct a canvass of East Cloverdale this Sunday afternoon.

The purpose of the canvass is to invite children who do not attend Sunday School to make use of the new and spacious facilities of the Zion Lutheran School on 179th Street at 60th Ave.

Members of the group feel that many who are not church members or church goers may be reluctant about sending their children to Sunday School.

The ten teams of canvassers, under the chairmanship of Barry McClintock, will offer the services of Zion Lutheran Sunday School to the children of the community who have no Sunday School of their own.

Officers to head the Lutheran Youth Group for this term are the following: Donna Herd, president; Barry McClintock, vice president; Betty Kozley, secretary; Nellie Breier, treasurer. Judy McClintock will serve as entertainment convener, while Rudy Breier, Barry McClintock and Andy Kozley will serve as zone representatives.

60 trades licences issued in White Rock

Sixty trades licences with fees totalling \$1,096 were issued in White Rock last month, according to a report by licence inspector A. F. Everett.

Licence inspections totalled 38 with one dog permit being issued, he said.

Thanksgiving 1959

Another year has passed between Thanksgivings and unemployment, strikes, threats of depression and war have again darkened the world scene and brought fear and despair to the hearts of many. Those who have met with hardship and heartache during the past year will no doubt be asking themselves this Monday, October 12 "what have I to be thankful for?" Yet if everyone stops to think for just a minute we all find much to be thankful for in the daily task of living.

Perhaps what we have to give thanks for seems small and trivial to what our neighbor has. But perhaps our neighbor is wealthy only in the material things of life and not the rich, important ones. Health and happiness, family and friends, food and warmth, the great outdoors and all its countless beauties, are just a few of the everyday blessings we seem to take for granted.

Many have faced difficulties in the past year and will face more difficulties before another Thanksgiving is marked, but there have been countless victories over difficulties, resulting from the gratitude for past blessings which have upheld faith in God through dark experiences.

The Christian Science Monitor asks: "What human heart but knows a wilderness experience? But not the bitter experience itself should stand out as all important. What kind of a soldier am I? Is the vital question. A well-loved writer who has learned in such warfare to maintain an attitude of gratitude thanked God for the pleasures he has enjoyed, and prayed - 'Now, when the clouds gather and the rain impends - permit us not to be cast down - let grateful memory survive in the hours of darkness.'"

Gratitude

Nearly all of us can recall our own child, or neighbor's child, sick and whimpering with the high fever, or the mother of the home lying in bed in utter agony, suffering with pain almost beyond human endurance. Remember how the physician finally arrived, wrote his prescription and left after telling us to have it filled as quickly as possible?

Many of us can recall the minutes that seemed like hours as we jumped into the car, rushed down to our friend, the pharmacist, and begged him to fill the prescription as quickly as possible. Recall how he carefully read the slip of paper and thoughtfully asked one or two pertinent questions about address and age of the patient and how his calmness somehow reassured us? Remember how our faith began to come back as we saw him confidently working behind his glass-enclosed dispensary, alert and without any waste motions selecting the proper ingredients, carefully placing them in the proper container and typing the physician's directions on the label?

And then remember the dash back home and how we couldn't wait to get "two tablets at once" into the mouth of our wife or child or husband, or whoever was in such dire need? And then after an anxious quarter hour, or half hour, the blessed relief that began to come.

This week, October 4-10, we salute these pharmacists of Canada who work almost unnoticed in their own professional area; sometimes unrecognized at the rear of a modern drugstore. Nevertheless, as we think about it, we realize that in addition to the pharmacists in the hospitals and in the professional pharmacies there is at least one specially trained person with long years of experience in the handling and compounding of drugs in any outlet labeled drugstore. In order to be allowed to bear the name drugstore there must be a pharmacy somewhere on the premises where prescriptions are filled and where there is at least one competent man licensed to practice the profession. To all of these men in the community, whether they serve in the hospital, in apothecary shop, or the corner drugstore, we say "Thank You" with grateful hearts.

Fire Prevention Tips

National Fire Prevention Week, October 4 to 10, will remind Canadians that many of the 60,000 fires each year could be avoided.

Officials of the All Canada Insurance Federation, which represents more than 250 automobile, casualty and fire insurance companies, urge everyone to give their local fire departments full co-operation during this week.

Because of increased use of heaters, fireplaces and stoves during fall and winter months, the Federation makes the following suggestions for greater safety:

- 1) Have electrical wiring checked before winter sets in.
- 2) Electric repairs and extensions should be done by qualified experts.
- 3) Chimneys and heating equipment should be cleaned and checked at least once a year.
- 4) Clear old magazines, rags and other inflammable objects from attic and basement.
- 5) If your house is an old one, be doubly sure that all heating and electrical equipment is safe.
- 6) Keep small children away from stoves and heating equipment.
- 7) Use only clean, first quality fuel for heaters and furnaces.
- 8) Do not block exits or stairways with portable heaters.
- 9) Matches and cigarettes are a major cause of fires; make sure they are not left burning.
- 10) Be sure that ash trays are readily available in every room.
- 11) Do not smoke in bed.

Did you know that?

What has been known as a very popular Irish song is no more Irish than the White Cliffs of Dover.

The world famous song "I'll Take You Home Again Kathleen" heard especially on so many Irish programs has no Irish connections in any way, shape or form.

It was written by an American composer named Thomas Westendorf in about 1875. He had made a promise to his wife Kathleen that he would take her back to visit her old home in Germany, thus a musical ratification of his promise.

A message to bond holders

The new series of Canada Savings Bonds goes on sale shortly and will offer the highest yield ever available on these bonds. The Series 14 will provide a yield of 4.98% if held to maturity. As the bonds at maturity will be redeemed at 103.00, this provides part of the yield in tax-free form. As usual, these bonds will continue the same attractive features of guaranteed redemption at face value, at any bank in Canada.

Because of the high yield and the immediate redemption feature, the new Series 14 Canada Savings Bonds are one of the most attractive investments for idle funds or "emergency" savings.

If you now hold any of the Series 14 bonds (with the exception of series 12) it is to your advantage to transfer to the new Series. You will obtain higher income without sacrificing any of your present safety features.

Valley water solution underground, study says

Fraser Valley planners will have to look underground for a solution to their water supply problem.

That's the conclusion of Western Development and Power Limited after months of engineering and economic studies of available sources of supply and anticipated requirements to 1981.

A report based on these studies states that further intensive investigation of underground water reserves is required, particularly in key areas where there is sufficient concentration of homes and industry to support local water systems.

It is expected these more extensive studies would cost about \$100,000.

The area investigated by Western Development was the south side of the Fraser River from Chilliwack to Surrey, inclusive.

MOST PRACTICAL

Western Development maintains development of local underground water resources is the most practical and economic method of meeting the needs of Valley people beyond the reach of existing water systems.

Ground water, the report shows, is available in most areas in sufficient quantities to meet requirements of industry and homes until at least 1980. It can be developed for about 10 cents per 1,000 gallons provided the demand develops close to the source of the different valley areas. (About the same price charged by member municipalities supplied by the Greater Vancouver Water Board).

Population in the Valley may be sufficient by the 1970's to support a plant drawing about 5,000,000 gallons of filtered water daily from the Fraser River, the Western Development report states. It recommends that a site in the Fort Langley area be selected for initial survey and that money to pay for the survey be allocated from public funds. The survey is expected to cost about 30,000.

COSTS

The report adds, however, that the Fraser Valley will be too thinly populated for at least 20 years to support a general main trunk pipeline system drawing water from a surface reservoir.

Water from such a pipeline could cost as much as \$1.80 per 1,000 gallons in 1961 and 40¢ in 1981. Local distribution costs would be added to these figures.

Western Development points out that legislation is needed in British Columbia to facilitate the gathering of detailed information about ground water

resources and to control their orderly development.

The report urges that the Lower Mainland Regional Planning Board and Fraser Valley municipalities work together towards effective control of urban sprawl and planned use of available land.

While the Valley's water problem primarily results from wide dispersal of population, the problem is aggravated by residential sprawl in rural areas. "Residential areas continuing to be formed," the report states, "with insufficient regard for such basic services as water. Only through planned land use and effective control of urban sprawl can the water distribution problem be prevented from becoming worse."

TOTAL DEMANDS

The Lower Mainland Regional Planning Board has estimated the population in the south shore areas analysed by Western Development is expected to grow from 102,600 in 1956 to 375,000 in 1981.

Total demand for water in 1981 is expected to reach 47,275,000 gallons per day.

There are large volumes of water available in streams that flow from the Chilliwack River watershed, the report explains. But a pipe line system to carry this water to points of local distribution would be uneconomical until Valley population has grown substantially. The report was prepared by Western Development to assist in the planning now being done in the Fraser Valley for adequate water supplies to support future growth in the area studies. Fostering industrial development in B.C. is one of Western Development's most important functions.

Complete the Breakwater

We've had the Breakwater made longer, did we say 'thank you' to our Federal Government, the least that we could do. If we did it, then all right, but if we didn't, then why not? Do we ask and get things done, then appreciation for it. Anyway Ottawa did as asked for, but to make the job a peach we need extensions from both ends, pointing to the Beach. Then we'd have a real enclosure, a really good Breakwater. A perfect haven for boats, winter weather would not matter. So that brings to our notice, our Provincial Government. The Breakwater is Federal owned, so Victoria can't it touch. So all we'd get from it, would be a brush off or such. That's my understanding, but we must face what is ahead. Will the job see its completion, before you and I are dead. We'd like to see it finished, give this place a real boost. Not have it called as heretofore, just a seagull's roost.

—W. F. MCCLINTOCK

Letters to the Editor

Editor, White Rock Sun.

Dear Sir,
Since the advance notice of the White Rock Players' November Bazaar appeared in your paper, we have received many enquiries from our supporters asking what assistance we need most.

Briefly, we will be glad of any help we can get. Mrs. Sheila Lane, WI 8-0991 is in charge of sewing and knitting, and will be glad to answer any enquiries regarding that department. Mrs. Elna Saunders, WI 8-2706, is in charge of home cooking. We are having a "White Elephant" stall.

We are very keen on getting any help we can in the large field of "novelties", and if you have an idea which you think would be profitable, will you please telephone me any evening to discuss it.

The Bazaar Committee has been given a certain amount of money to finance projects which it feels will justify the

expenditure, and I would be very pleased if anyone with bright ideas would get in touch with me.

The working membership of our club is very small for a major undertaking of this kind, particularly with the construction of the theatre in progress at the same time, and on behalf of the Players I would like to say that any assistance of any sort will be greatly appreciated.

Una Lilwall,
Chairman,
Bazaar Committee,
WI 8-0072.

To spend a golden day

by Margaret Lang

It was a beautiful day. One of White Rock's finest. A day resplendent with sunshine. The golden splendour gave a new dimension to all the shades of green and lovely fall colors in the garden. A perfect day! Just the kind of day to get the daffodil bulbs planted. At least that's what I tried to convince myself of as I scanned the garden. There was lots of fall gardening yet to be done. Planting the bulbs posed a problem I'd been avoiding. I had to conquer my reluctance to pulling out brilliantly flowering zinnias and marigolds before I could make a space to put the bulbs. However, though it took some self-discipline, I finally armed myself with the tools, et cetera necessary for the job and set to work.

There seemed no reason why I should not get the planting done quickly. I had no thought of anything interfering. It was a grand day! The work would provide pleasant exercise. It was a job to stimulate the imagination. There would be visions of the golden reward of the blooms that would grace the garden in the future. I had scarcely started my project however, when my husband called that he was about to go down to the beach. Would I like to go with him? He reminded me it had been a long time since I'd gone for a walk along the beach. It was such a lovely day for a tramp along the water's edge.

Impatient at being distracted even for so attractive a suggestion I muttered that I had no time to go gallivanting and proceeded to prove how busy I was by yanking up marigolds and zinnias with determined vigor.

My preoccupation with the job discouraged any further discussion and when next I looked up I was alone. The work went along smoothly for awhile, but something had gone out of my single-minded enjoyment of it. I found my attention straying from the task and I mentally accompanied my husband down the hill to the water. My glance moved away easily from the brown earth to the glorious panorama of gleaming water, blue sky and distant mountains. As I looked at the lovely view, lines of an almost forgotten poem came clearly to me.

"There never comes a day like this, all gold
And shining like a bubble
In the sun.
But I recall the afternoon
I told
You I'd no time for play,
work must be done!"
The lines set up questions

Crowe retires after 15 years with Highway Dept

Distinguished highway constructor, Captain George Crowe, 14200 Marine Drive, retires from 15 years' service with the Provincial Government's Department of Highways this week. He has served five years past retirement age.

Mr. Crowe's first job supervising highway construction for the provincial government was the building of run-ways at the Abbotsford airport. He has also supervised such stretches as the Hope-Princeton highway, the Trans Canada between Langley and Abbotsford; the Cariboo Highway between Lac La Hache and Quesnel; the southern Trans-Provincial between Trail and Nelson and the Northern Provincial Highway at Vanderhoof.

Most recent project supervised by Mr. Crowe was the completion of the Ladner Trunk Highway leading to the Deas Island Tunnel.

Closer to home, Captain Crowe also supervised the paving of the Campbell River Road from the King George Highway to the Pacific back in 1950.

Captain Crowe and his family moved to White Rock from Abbotsford in 1941.

He received his training at the University of Leeds as a civil servant where he served as assistant engineer for the post office. He emigrated to Canada in 1912 settling in Montreal where he acquired the position of estimate engineer for the CPR.

Upon the outbreak of World War I he joined the Canadian Engineers and went overseas immediately. Again in World War II he offered his services and served as administration officer with the Veterans Guards.

Mr. Crowe has two daughters, Pat at UBC and Mary at home.

Composing music is Mr. Crowe's chief hobby. He has

written a number of songs, among which was the popular White Rock song. He is organist at the Star of the Sea Church.

But Mr. Crowe does not plan to retire. Instead he is considering going into the black-topping business in the White Rock area. In this field, as was his custom on the provincial level, he will give strong emphasis on durability.

Fire Prevention Week

Latest addition to equipment at the Ocean Park - Crescent Beach Fire Department is this sea rescue boat being admired by crew members (l. to r.) Ray Flanagan, J. L. Barringer, J. C. Barringer and Derek Uren. The boat and its equipment is presently housed at the Fire Hall on Stevenson Road but officials hope to find suitable quarters in the vicinity of the immediate beach area. The boat could be launched quickly and efficiently if quarters could be found in that area.

—W. W. Hastings photo

Make fire prevention your business every day, remember these tips

by C. W. POLLARD
Chief, White Rock Fire Department

Fire dangers are present every day of the year and we must continually combat this demon and destroyer. Fires are useful when controlled but extremely dangerous when uncontrolled.

There are plenty of big fires each year but they account for only a small percentage of the loss of life and property. Small fires which could easily be prevented and soon extinguished account for the majority of deaths and property damage.

What are the causes of these small fires? We are careless smokers. We do not teach our children to respect fire and matches. We are too busy to check our heating units, chimneys, lamps and cords, wiring and fuses. We neglect to dispose of rubbish from basements and attics.

Careless smoking habits contribute to at least twice as many fires as defective heating

and cooking apparatus do.

In order for loss of life and property to be kept at a minimum we must adhere to the following:

Be careful smokers. Keep matches out of reach of children. Do not tinker with electrical equipment. Do not allow rubbish to accumulate around your premises. Do not clean clothes or floors with gasoline. Finally, do not give fire a place to start.

The City of White Rock has enjoyed a very favorable record in fire prevention so far this year with the actual fire loss at nil. This points to the fact that citizens as a whole are becoming increasingly fire conscious from year to year and are practicing fire prevention every day.

It is as simple as that. Never stop practicing fire prevention.

Estimated construction at \$87,865 in Sept.

Estimated building construction in the city during September reached \$87,865 with 27 permits being issued, building inspector A. P. Everall has reported to council.

Some 118 building, 48 plumbing and six miscellaneous inspections were made last month.

Ten plumbing, five electric and two miscellaneous and demolition permits were issued, Everall reported.

Fire loss amounts to \$25 in city

Fire loss in White Rock during the month of September amounted to \$25 with a \$7,300 risk involved, fire chief C. W. Pollard states in his monthly report to council.

Inspections regarding fire protection and prevention totalled six last month, the chief reports.

Some 80 burning permits and 14 oil and gas permits were issued.

Three residential fires and one chimney fire was responded to in September.

There were no inhalator calls.

Horticultural group change schedule here

White Rock Horticultural Society has changed its meeting time to the winter schedule and the next monthly meeting and parlor show will be held Tuesday afternoon at 2 p.m. on October 13 in the White Rock United Church Hall.

Mr. and Mrs. A. Swenson of the Evergreen Garden Club of Ladner will judge the exhibits. Mr. Swenson will give a talk and show slides of gardens and plants they visited and saw on their recent tour of Europe. Afternoon tea will be served and the public are welcome to attend.

Attic insulation—how much to use?

How much is the right amount of insulation for your attic?

Until two or three years ago most people thought that two inches of insulation was enough. That was all that Central Mortgage and Housing Corporation required, so why get more?

Recent studies of fuel savings possible with higher levels of insulation are changing that thinking.

While two inches of insulation will save 26 percent of the fuel required to heat a house with an uninsulated ceiling, four inches of approved type insulation will save 47 percent!

When you decide to re-insulate to bring your attic level up to the most efficient depth, consider these five points of good insulation when you choose an insulating material:

1. Is it easy to apply so you can do the job yourself?
2. Is it fire-safe?
3. Is it free-flowing so it fits snugly into corners?
4. Is it clean - both bug and rodent proof?
5. Does it give maximum fuel savings?

It is easy to add to existing insulation. Ask your lumber dealer.

Reusch stands for Alderman

White Rock Board of Trade director A. R. Reusch has announced he will stand for alderman in the December civic election.

Reusch was unsuccessful in his attempt for an aldermanic seat last December.

Reusch has been active in many senior citizens projects as well as community affairs.

In addition to being a Board of Trade director, he is a member of the Sea Festival Society and Farmers Union. He is a director of the Key Gas and Oil Company.

Wilbur Dawson attends meeting of Chamber

Wilbur Dawson of White Rock, a director of the B.C. Chamber of Commerce, has returned after attending the quarterly directors' meeting of the Chamber held Sept. 30 and Oct. 1 at the Empress Hotel in Victoria.

The directors presented the Chamber's proposals to the Provincial Cabinet Thursday and Mr. Dawson reports this phase of the meeting proved most interesting.

Civil Defence needs home nursing instructor

White Rock Civil Defence Co-ordinator Rupert Harris is making a special appeal for a home nursing instructor for the civil defence winter classes to be conducted at the local Elementary School.

Volunteers may contact Mr. Harris by phoning the City Hall.

Special service at Church of Christ

A special Thanksgiving service will be held on Monday, October 12 at 11 a.m. by First Church of Christ, Scientist, 1130 F Street.

A period devoted to voluntary expression of gratitude for God's goodness is included in the Thanksgiving Day service in all Christian Science churches.

No collection is taken at this service, and local members have invited the public to attend.

Readings from the King James Version of the Bible and from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will comprise the Lesson-Sermon for the day entitled, "Thanksgiving."

Clubs Lodges

Highest group of White Rock Hospital Auxiliary will meet on Wednesday, Oct. 14 at 2:15 p.m. at the home of Mrs. Fadden, 1449 Blackwood. Mrs. Cotterall will be co-hostess.

Friendship group of the W.A. of White Rock United Church will hold its monthly meeting in the church lounge on Tuesday, Oct. 13 at 2 p.m.

Coldcutt group of the White Rock Hospital Auxiliary will hold its next monthly meeting on Tuesday, Oct. 13 at the home of Miss J. E. Casselman, 14035 Marine Drive.

Branch No. 8 of the Canadian Legion will hold its general meeting on Tuesday, Oct. 13 at 7:30 p.m. Election of officers will take place.

Zone 1 Ratepayers will hold its annual meeting on Thursday, Oct. 15 at 8 p.m. in the Buena Vista Hall.

Goodwill Hospital group will meet at the home of Mrs. Hastings, 14711 Oxenham Ave., on Tuesday, Oct. 13 at 2 p.m. Mrs. Fyfe will be co-hostess.

Regular monthly meeting of the Ladies Auxiliary to the Army, Navy and Airforce Veterans will be held in the Unit Club Rooms on Wednesday, Oct. 14 at 8 p.m.

Living Room Learning opens

Another "living room learning" program will be instituted Monday evening, Oct. 12 at 8:30 p.m. at an organizational meeting to be held at the home of Mr. and Mrs. John Harris, 14940 Thrift Avenue, phone WI 8-8048.

These 10-week sessions, that are in the form of study discussion groups cover a wide range of topics. Last winter a group was formed to take the program entitled "The Way of Mankind." This was a fascinating study of the customs, values and way of life of various cultures both past and present.

Other topics available will include "modern painting," "Shakespeare and his theatre," "Great Religions of the World," "World Politics" and "The Humanities."

The groups are sponsored jointly by the University of B.C. and the American Forum for Adult Education. All interested are asked to attend this meeting.

White Rock Ratepayers express their opinions

Ratepayers president attacks council for assessments, attitude to public

"Administration of the City of White Rock has cost every man, woman and child within the city the sum of \$12.90 annually," J. T. McDuffe, newly elected president of the White Rock Ratepayers' Association, told the annual meeting here.

"On the basis of average," he went on, "every acre has been charged the sum of \$86.45 for the administration cost of this city."

The main object of the Council has been to see how much money they can extract from the old age pensioners. Under the revised assessment, 90% of the assessment was made against the old age pensioners. Some \$3,000 homes were reassessed to \$5,000 and \$6,000.

J. T. Carlson claimed his property had been re-assessed 300%. He paid \$42 in taxes a year ago and this year his taxes skyrocketed to \$128.

Albert Hunt accused the practice of penalizing delinquent taxpayers.

He pointed out that a ratepayer is charged 10% more even if he is only a day late. Delinquent taxpayers in Vancouver have three days grace and then they are charged only 5% more.

Al Reusch pointed out that the assessor's duties were to bring all the city's properties into line, but as yet he hadn't heard of any property which was assessed for a lower amount.

"With the tremendous increase in assessments, will we have a lower mill rate next year?" Reusch asked.

"The city's assessments have been raised by 80%, so it is logical that there must be a surplus and the rate should go down."

Ald. Max Zack defended council. He stated the council does not collect a penny more than is needed to cover the cost of services.

"If there is a surplus next year, it will go towards a reduction in taxes or towards extra services."

Apartments would pay a lot more taxes for a piece of land, Zack stated, and this would relieve the tax burden on the homeowner. Zoning within the city is at fault. If more people would suggest this to the council it might do some good. I am telling council that all the time.

"I think we can be quite happy with apartment houses anywhere in the city. We are too small to keep cutting the city up."

"What worries me is that by the time council decides to change the zoning all the available land will be used up," Zack said.

Mrs. Ray Williams suggested that the city assessor, John Neill, be invited to attend a Ratepayers meeting to explain his method of assessing property.

Hunt pointed out that reports that 82% of the taxpayers had met their taxes was no true picture of the situation.

"We don't know how many of these people had to go to the bank to borrow their tax money at 4 percent interest."

Second look for Terry Rd. asked

City council will be asked to give further consideration to a request for a stop sign at the corner of Terry Road and Marine Drive.

White Rock Ratepayers Association decided to ask the city to give second thought to the request at its annual meeting Thursday. Council had earlier refused to erect a stop sign at the intersection.

Mr. A. J. Carlson pointed out that this corner constituted a very dangerous crossing with residents of the area living in constant fear of an accident.

Ald. Max Zack pointed out that the matter of stop signs is controlled by the budget and it will be left to the advice of the public works department and police.

rather than pay the 10 percent penalty they would have been faced with had they been tardy."

Decision was made to request council to abolish the 10% penalty reducing the penalty to 1% for the first month, and increasing the penalty gradually to no more than 5%.

The city assessor will be invited to attend one of the Association's meetings.

McDuffe felt council's attitude towards the Ratepayers is that members "don't amount to a hoot."

He claimed council is "dictatorial" and have been in every instance when a ratepayer has endeavored to acquire information.

Great Northern urged to keep pier entrance clear

White Rock Ratepayers Association will request the Great Northern Railway to prevent trains from blocking the pier entrance at the foot of Martin Street for more than five minutes at a time.

The dangerous condition existing at White Rock's front door was brought to the attention of White Rock Ratepayers at their annual meeting when Mr. A. J. Carlson, retired CPR employee, stated that a Great Northern freight train had blocked the pier's entrance for more than an hour last Sunday.

"Stupidity" on the part of the train crew, was blamed by Carlson for the condition. He pointed out that in the event of an accident or emergency on the pier, police or ambulance officials could not have reached the scene.

Another attempt for sidewalk

Ratepayers in the Zone 2 area will make a second attempt to have a sidewalk constructed on Johnston Road between North Bluff and Prospect.

Council had turned down a previous request for the sidewalk pointing out that at least two thirds of the taxpayers in the area affected must be agreeable to sharing the cost of sidewalk construction.

Mr. Ray Williams was named to head a committee to look into the matter further and to interview taxpayers on Johnston Road requesting them to petition for a sidewalk. Mr. George Wilson, Zone 2 chairman, and Mr. Sia Thomson comprise the committee.

Zone 2 members have also written to the RCMP suggesting that a crosswalk be installed at the corner of North Bluff and Oxford, as a school crossing for the Thrift School. Members reported there have been many near-accidents at this corner.

Mrs. Alice Kowalchuk and Mrs. F. E. Savage were tea conveners and Mr. Ken Whipple served as projectionist, during the showing of films of New Foundland, through the courtesy of the Surrey Film Council.

Efforts to organize new Ratepayers group

Mr. Thomas Wilson, official wharfinger, is anxious to organize a Ratepayers' group in the Victoria, Columbia and Washington Avenue areas if enough residents indicate their interest.

Residents of this area feel they get nothing for their tax dollar, Wilson points, with most of the improvements being carried out on the Hilltop. He feels it is time ratepayers in this particular area banded together.

Interested residents should contact him at WI 8-8051.

Ratepayers name McDuffe head

Mr. J. T. McDuffe, 943 Stayte Road, was elected president of the White Rock Ratepayers' Association at the annual meeting held in the Buena Vista Hall on Thursday, October 1.

Mr. Soren White was elected vice president; Mr. Walter Portwood, secretary treasurer and Mr. Albert Hunt and Mr. George Wilson, auditors.

The president, vice president and secretary of each zone will form the executive of the Parent Body.

Mr. George Wilson, president of Zone 2, reported his group meets on the first Saturday of each month at the homes of the members. He reported his zone was in a thriving condition with interest keen amongst the members.

Mr. H. G. Morkley, vice chairman of Zone 1, reported his zone had enjoyed a very successful year and boasted 60 members last year.

Zone 1 members own the Buena Vista Hall, he stated, and recently undertook renovations to the hall.

Ratepayers Assoc. in good standing

White Rock Ratepayers is once again in good standing after meeting with the regulations set down in the Societies Act.

A certificate of the Societies Act was received by the Association on July 14 of this year. The Association had gone in to default three years ago due to the fact the group failed to submit reports of its meetings to Victoria.

Upon the motion of Ald. Max Zack decision was made to send in a report of the annual meeting immediately after the financial report had been audited.

Ask Improvements

Sunday mail pickup is recommended for city

Three major improvements to White Rock's mail service have been recommended by White Rock Ratepayers Association.

The Association agreed at its annual meeting Thursday to petition postal authorities to establish a Sunday mail pickup service in the city.

The organization will also ask the department to provide better postal service generally and to arrange adequate mail boxes in White Rock.

This action was taken after a former postmaster, Albert Hunt rapped the postal service and urged the Ratepayers to take action.

Mr. Hunt reported a letter mailed to him from New Westminster on August 29 arrived at his home on September 28. He stated letters mailed to him from Edmonton Saturday afternoons are not received in White Rock until Tuesday. He scored this as a lack on the part of the local postal authorities.

Hunt emphasized that postal services are a public service and should be carried out for the convenience of the residents. He scored the lack of mail collection on weekends. He pointed out that residents in the area of Stayte and North Bluff have to walk either to the hospital or down to Buena Vista in order to mail a letter.

He said he had been petitioning for a sub post office some where east of Johnston Road. Ald. Max Zack supported Mr. Hunt in stating that at times he has had to wait as long as

15 minutes in the main post office before he could get to the wicket.

He pointed out that a sub-post office had been established at North Bluff and Nichol and it was just possible if enough interest was shown that a similar one would be opened in the east end of the city.

Low rentals up to the citizens

"It is up to the citizens of White Rock to find ways and means to provide low rental housing for its senior citizens," Mr. A. Reusch, Board of Trade director, pointed out to the annual meeting of the White Rock Ratepayers Association.

"Five years ago the Federal government set money aside for low rental housing. This fund has never been depleted. The provincial government has a fund on hand for this purpose also, and all it requires is interested residents to back the move."

"We collect money for benevolent organizations but no one pays any attention to the elderly people."

"The federal government will pay up to 90% of the cost and the provincial government will assist also, and the entire venture can be realized to assist these aged people if White Rock residents back it," Reusch said.

are features of Cadillac for 1960. Less chrome trim is used this year and front and rear bumpers and grille

work are changed. Shown above is the Coupe de Ville, one of 13 models offered this year.

University Women's Club hears report on World Conference

Some 45 members and prospective members were on hand for the first fall meeting of the White Rock branch of the University Women's Club held at their dinner meeting held in the United Church Hall Monday evening, September 28. President, Miss Jessie Casselman, presided.

Out-of-town guests included Mrs. McLaughlin, president of the Vancouver chapter, Mrs. Mather, vice president, and Mrs. Morton, all of Vancouver as well as representatives from the Mount Vernon chapter.

Following the dinner Mrs. D. J. Doubleday rendered pleasing solos accompanied by Mrs. W. R. Dewar.

Highlight of the meeting was a report on the Conferences of the International Federation of University Women held in Helsinki, Finland. Mrs. Norman Murray and Miss Alice Hockin, members of the White Rock chapter, present at the conference, gave detailed accounts of their impressions of the eight day program.

Delegates and representatives numbering 700 were present from most of the world's countries, with five delegates and 45 representatives attending from Canada.

Mrs. Murray attended the interest groups dealing with education while Miss Hockin attended sessions dealing with entertainment, the people and their customs.

Finland, they found, showed signs of the suffering its 4½ million inhabitants had undergone during the three wars which had engulfed that country since 1939. Both Miss Hockin and Mrs. Murray expressed great admiration for the Finnish women.

The Finnish music thrilled convention goers, they report.

School examinations are one-sided; it is not so much academic education as a moral and spiritual culture, which lifts one higher.

A man without decision can never be said to belong to himself; he is as a wave of the sea, or a feather in the air which every breeze blows about as it listeth.

1960 Cadillac again leads field in automobile design and comfort

Handsome lines and simplicity of design characterize Cadillac for 1960, introduced by General Motors of Canada, Limited, says Wally Griffiths of Midway Motors Ltd., White Rock.

Tail fins of the 1960 Cadillac are more restrained. The front end has a wider and lower appearance as the result of a new grille, new bumper and new lights. There is less side chrome and the rear bumper and lighting arrangement is new.

Mechanical developments in the 1960 models give a smoother and quieter ride and better braking.

For 1960 Cadillac is offering 13 models in three standard and one custom series. All models are basically unchanged in dimensions over last year's models.

The wider and lower appearance of the new front grille is achieved by the addition of a fine horizontal grille bars between rows of jewel-like ornaments and the elimination of the centre bumper bar.

At each end of the front bumper is a broad, visor-like, chromed housing with two parking and directional signal lamps recessed below. On the hood is a new slimmer V and crest.

A new chrome ornament on the top of the front fender has a small amber light on the rear face which serves as a turn signal indicator for the driver.

The Sixty Special has a fabric covered custom top, grain-ed material which matches the body color and is outlined by a narrow molding painted in body color and edged in chrome.

The Eldorado Biarritz and Seville feature a thin chrome side molding that accentuates body contours. The Seville retains its fabric covered top similar to the Sixty Special.

The air intake below the windshield on all models has strips of body color in a finely shaped grille.

The rear end styling of the 1960 Cadillac is most distinctive with contoured taillight lenses in the trailing edge of the fins. Just below these are new vertical oval chrome bumper housings each containing two circular lamps with concave lens.

Fifteen basic acrylic colors are available throughout the line and the Biarritz and Seville have five additional exclusive finishes.

1960 Cadillac interiors offer new elegance, beauty, greater comforts and added conveniences. Fine Florentine leathers and handsome, all-new harmonizing fabrics appear in 103 distinctive newly-styled combinations.

The new instrument cluster is recessed deeply and has a new curved glass facing and larger and clearer numerals for maximum driver visibility.

Space between the accelerator and brake pedals is wider. This results from the engineering of a new, narrower and lower transmission housing.

A new pocket or recess at the base of the accelerator pedal makes driving with high heels more comfortable.

The major engineering advancement for 1960 involves the brakes.

Increased rear brake cooling provided by new finned and extended rear drums, makes possible the use of larger rear brake cylinders providing better braking distribution between front and rear wheels to give straighter stopping action with less skid on slippery roads.

Hollingshurst heads Youth Fellowship

Fred Hollingshurst, Grade 13 student at Semlhamoo High, has been elected president of the Youth Fellowship of the White Rock Evangelical Free Church. Miss Louise North-east was named vice president. Sylvia Barth was elected secretary and Ron Morrison, treasurer. The group meets each Sunday evening at 6:30 p.m. in the Church.

Parents will be introduced to the work of the Sunday School at the annual Promotion Service at the Evangelical Free Church, Sunday morning, Oct. 11 at 9:45 a.m.

Parents will be given an opportunity to meet the staff and also to enjoy a class hour in the parents' class taught by Mr. Jake Sukau.

WHITE ROCK SUN

THURSDAY, OCTOBER 8, 1959 11

when the car is put in gear. Thus, it becomes impossible to drive the car with the parking brake on.

Performance, responsiveness, smoothness and economy keynote the 1960 Cadillac engine. The compression ratio remains at 10.5 to 1 and the horsepower is unchanged in the two power plants—a 345 horsepower engine for the Biarritz, Seville and Brougham and a 325 horsepower engine for all other models. The 345 engine

is optional equipment in all other models.

Accessory refinements for 1960 include: The use of vacuum instead of electric power for quieter safety door locks; a newly styled, smaller automatic headlamp dimmer, and the addition of shut off controls to the left and right side air conditioning outlets, enabling the driver and passenger to regulate the flow of cooled air to their individual liking.

A GENERAL MOTORS VALUE

The Fleetwood Sixty Special

...Creating a New Era of Elegance!

The motor cars you have just seen will soon introduce a new era of elegance to the world's highways.

They are the Cadillac cars of 1960—and, from every standpoint, they represent the Cadillac tradition in its finest hour.

In appearance, they are regal and majestic as never before—a brilliant symphony of line and contour from the sparkling new front grille to the graceful flow of the rear fenders.

In interior decor, they are truly magnificent—featuring luxurious new fabrics and leathers—new convenience of appointments—and new excellence in every detail.

And in the way they drive and handle, they are perfection on

wheels. There is a greatly refined engine and transmission that provide even finer performance... a ride of unbelievable smoothness and quiet... and advancements in power steering and braking that make motoring the simplest of pleasures.

These new Cadillac virtues have been interpreted in thirteen distinctive body styles. Every motorist owes himself an hour at the wheel of one of these creations. It is, without doubt, the most rewarding experience motoring has to offer.

The 1960 Cadillac is waiting for you now at your authorized Cadillac dealer's—and your dealer himself is waiting to introduce you to this magnificent new Standard of the World!

Last rites were held Saturday from Chapel Hill Funeral Parlour for Harry Beckett of Beckett Road, a long-time resident of Crescent Beach. Mr. Beckett was owner of "Bill" the wartime Red Cross Dog who would take up his stand at Dunsuir and Granville in

Vancouver with a Red Cross collection box around his neck. Mr. Beckett and his dog collected many thousands of dollars for Red Cross purposes in this manner. Pallbearers at the funeral were Mr. Justice Harry Sullivan, D. S. Montgomery, C. Clark, J. R. Stubbs and W. W. Hastings.

Late hospital workers praised by Aux. head

The work of Mr. W. C. Shields and Mr. R. Strange on behalf of the White Rock Hospital prior to their death, was praised by the Auxiliary president Mrs. J. W. Dow, at the regular monthly meeting of the Auxiliary, Thursday, October 1.

Both Mrs. Strange, the first group leader of the Satellite group and Mrs. Shields, a long time Auxiliary worker, have made a splendid contribution to the progress of the hospital, Mrs. Dow said. Letters of sympathy will be sent to both of these women.

A letter was received from Mrs. Paul Starek, immediate past Auxiliary president, now residing in Nelson. She reports she has already become very active in that interior city.

Three treasurer's report showed a balance on hand of \$2,886.75.

No definite word has been received on the matter of whether they will hold a pantomime in conjunction with the White Rock Players Club. Several changes in the regulations of the Superfluity Shop were reported.

Mrs. J. D. Dingwall, Shop treasurer, reported that September was a record money-making month in the life of the Superfluity Shop with the sum of \$631.70 being realized. The success was attributed to the fact that September boasted five Tuesdays. Largest monthly sum realized prior to the September record was \$518 in August.

RECORD DAY

Record day in the Shop's history was September 29, when an intake of \$100.03 was realized. Highest sales for a working day realized prior to this record was \$90.

Mrs. R. W. S. Johnston, reporting for the Portable Shop showed a profit of \$10.71 for August and \$11.18 for September.

Mr. Ray Williams, hospital administrator, addressed the Auxiliary on out-patient care; what the BCHS benefits are and what the patients have to pay for.

Mrs. P. H. Procter, one of the two mentors for the Junior Hospital Auxiliary, reported the members were working in the hospital weekends. Support of the girls who are working on weekends at other jobs have asked whether they can work at the hospital on Sundays.

Members are gathering tickets for patients at Woodlands.

The girls were so impressed when they visited the Woodlands School that they asked what they could do to make a worthwhile contribution, and the matron suggested they could send a box of small gifts.

Membership committee convenor, Mrs. W. H. Bruels, reported she wanted to put in all her time now with the Superfluity Shop Committee. Mrs. Paul Starek, now residing in Nelson, convened this membership committee with Mrs. Bruels. A new committee will be formed.

GOOD RESPONSE

The emergency committee, convened by Mrs. Don Munro, reported they have had a good response when they have asked Auxiliary members if they would be willing to help in the event of an emergency. Two Auxiliary groups responded with 100 percent of its membership and some have volunteered to help in as many as six fields.

The B.C. Hospital Auxiliary convention will be held on Oct. 21, 22 and 23, with president, Mrs. J. W. Dow and Mrs. D. M. Johnstone attending.

There will be a meeting to hear reports of the delegates on November 5 on the Auxiliary's regular meeting day, in Conner's Hall. All ladies of the district are invited to attend.

Grant resigns as Crescent postmaster

Hugh Grant, popular Crescent Beach postmaster, has resigned to enter private industry. No appointment to replace Mr. Grant has yet been made but Mrs. K. McWilliams is acting as postmistress at present.

Luckiest lady at the free cooking school sponsored last week by Canada Safeway's White Rock store is Mrs. Alf Whittle, of Pacific Avenue, (left) who won the 30" General Electric fully automatic electric range donated by Bill Palmer of Butchart's Furniture and Appliances. Mrs. Whittle is seen with Hal Wilson of the local Safeway Store, Mrs. Grace Reed, internationally known home economist who conducted the classes and Bill Palmer. The Canadian Legion Hall was filled to capacity for nearly all the classes and many other prizes were given away at

No Guide leaders hinders progress

Lack of leaders is once again hindering the progress of Brownies and Guides in South Surrey and White Rock, Mrs. K. Whipple, District Commissioner reports.

The 3rd Brownie Pack was necessarily closed last year due to lack of leadership and it has not yet re-opened.

An enthusiastic group of Guides in the Sunnyside area are anxiously awaiting some response from some community minded women who would volunteer to direct them in their Guide Company, but as yet the group remains unorganized due to lack of leaders. Anyone interested in youth and willing to give two hours a week to this worthwhile endeavour is asked to contact the District Commissioner, Mrs. Whipple at WI 8-8165.

Alice Stark trophy slide to be shown

White Rock Color Photography Club will hold its regular meeting on Friday, Oct. 9 at 6 p.m. in the Library. Program will consist of a talk on exposures and exposure meter, member's 10 minutes by L. Thompson and picture appreciation. Members are asked to bring four slides. A showing of the slide chosen for the Alice Stark trophy will take place.

Obituaries

MONTGOMERY - October 1, 1959, Ellen Montgomery of 14832 Buena Vista Ave., White Rock, age 62 years, survived by two sisters. Funeral service was held Monday, October 5 from Chapel Hill Funeral Parlor, 14615 North Bluff Road, to Sunnyside Lawn, Rev. R. Hardy officiating.

Hospital Aux. fund schemes

Hard-working hospital group members continue to swell the coffers of the Auxiliary with the implementation of their original ideas all based on raising money for hospital purposes.

Reporting at the Auxiliary's October meeting was the Arcadia group who turned over the sum of \$35 to the Auxiliary from the summer sale and tea they had staged earlier. The group has planned a social afternoon and bazaar to be held on November 18.

The Crescent group are holding a membership tea on Thursday evening, October 8. The Crossroads group are busy raising talent money amongst their members. The Gage Park group are raffling a doll and wardrobe.

The Goodwill group will be convening the Superfluity Shop on Saturday morning, October 10, and will feature a stall on home baking and home made marmalade.

The Hilltop group raised \$75 from their delicatessen sale staged in July. They are planning a pie sale for November in front of the Overwaita store.

A Tea and raffle netted the Hi Crest group the sum of \$82 which they turned over to the Auxiliary.

A flower arrangement demonstration and tea held in September netted the Mann Park group the sum of \$30. The Merrilbell group is planning a bingo party to raise funds.

The Merklin F Group are holding a bazaar in the Canadian Legion Hall on November 4 at 2 p.m. Crib for men will be featured as well as entertainment.

Each member of the Satellites have undertaken to raise the sum of \$5 for the Auxiliary.

The Trillium group members entered a number of exhibits in the Surrey Fair for which they won \$25 in prizes which they turned over to the Auxiliary.

Auxiliary president, Mrs. J. W. Dow, is encouraging the Auxiliary members to interest their husbands in taking out membership in the Hospital Society.

It's clear track ahead with the right insurance protecting you all the way. Make sure completely cover your family that all your valuables are fully insured.

In The Garden

By G. E. Sery

LANDSCAPE GARDENING

What is landscape gardening? Surely it is not just bulldozing, laying out a plot of ground for a lawn, making concrete walks and paths, planting a few old trees and shrubs, any old place, regardless of size, shape, color and eventual height!

But that is what many a contractor will do and call himself a landscape gardener. A good landscape garden is not made in a short season. It takes years of experience and study to be a true landscape gardener, and even then, if he is not suited to that kind of work, he'd better leave it alone. There are many good experienced gardeners, who can grow anything, but they usually know if they can do landscaping or not. A man with a concrete mixer and a tractor is not a landscape gardener.

So if you are planning to make a garden in an artistic fashion, choose a man who may know something about it. Granted, that a small suburban garden does not require very extensive knowledge and the average jobbing gardener can usually do a fairly successful job with the co-operation and advice of the owner, if you, Mr. Owner will take the trouble to get the advice of someone who knows something about it. You may have certain ideas of what you would like, but be sure that those ideas are sound. If not, and if those ideas turn out to be foolish, you will only be blaming the poor gardener.

The art of landscape gardening is one that not only calls for a good deal of natural artistic taste on the part of the operator, but also needs considerable study and practice. The landscape gardener has to deal with the landscape and its improvement. If alterations are to be made, they must be so carried out that they are in unison with the surrounding country, and moreover, they

must appear perfectly natural both in design and execution. The work must not be done at haphazard. There must be a settled plan about the whole, and that plan must be so constructed as to make the most of existing natural features that are worth incorporating. The removal of old trees, for instance, must not be carelessly undertaken, for it means often the lapse of a couple of generations before they can be replaced. It is perfectly permissible, however, to remove trees that shut out the view from a desirable feature.

Vista-making is an important part of landscape gardening, and to carry it out the various points of vantage have to be ascertained, and their values determined. Again, tree thinning becomes necessary when some are spoiling others, as one good specimen is better than half a dozen poor ones.

In the formation of new plantations the planter has to look forward and understand what the size and appearance of the trees will be in 20, 30 or 40 years' time, or when they have reached maturity. He has, moreover, to take into account spring, summer, autumn and winter effects, to think of the yellow leaf as well as the delicate green of spring. There must be no clashing, and the interest must be sustained.

Again, the outline of the 'scape, from various vantage points, must be undulating, not straight or unbroken. While special hues, as for instance the dark green of conifers, may be

made the most of, they must not be repeated until the eye wearies of them. The character of the soil, the peculiar situation, and the likes and dislikes of the owner have all to be taken into account. It is of no use to plant trees or shrubs that are likely to succeed and, if doubtful ones are included, it must be in positions where they can easily be replaced, should they fail.

The peculiar character of the dwelling house has to be taken into consideration. A certain amount of trimness is usually necessary in the grounds adjacent thereto. In very few cases, indeed, can the wild garden be brought near the house. Straight lines in paths and flower beds should be strictly avoided. The usual plan is to have the flower garden, with the trimly kept lawns, next to the house, and allow a gradual passage from these to the wilder parts beyond.

Paths should be as few as possible, and each should be made for some definite purpose, not giving the visitor the impression that it was introduced just for the sake of having a path. Nature abhors straight lines, and thus the paths, especially those of gravel, should run in bold but graceful curves.

Hunt likely
Ald. candidate

Mr. Albert Hunt of North Bluff Road is considering entering the December Aldermanic race.

Mr. Hunt has 30 years' experience in public life while a resident of Plato, Sask. There he served as a school board member and chairman, justice of the peace as well as judge of the juvenile court. He was postmaster in the town throughout the 30 year period.

Chief contention of Mr. Hunt's is the 10% penalty charge to delinquent taxpayers. He feels this is a hardship which should be done. A prolific writer, Mr. Hunt

Above all, every effort should be made to copy and follow nature as much as possible. For instance, if a pond is decided upon, it should not be made at the top of rising ground, but placed at a lower level. In every case where an artificial pond is made, it is necessary to puddle the bottom with several inches of tough, plastic clay, otherwise in summer the sight and smell will be anything but agreeable. The presence of ponds permits the cultivation of many charming aquatic and sub-aquatic plants.

is presently engaged in his latest book, "Thirty Years Behind Bars," depicting his many experiences while a postmaster.

Hands crippled by arthritis need not be useless. Medical prescribed treatment, including hot wax baths is supplied by the Canadian Arthritis and Rheumatism Society

to restore muscle strength and the ability to work again. The local CARS branch is a member agency of the United Good Neighbors Drive.

UGN member agency

I can never repay CARS' White Rock woman says

by Christina Stewart

"I can never fully repay CARS for what they have done for me," were the words spoken recently by Mrs. Robert Traca, 32, of 15430 Russell Avenue, White Rock.

Mrs. Traca has had rheumatoid arthritis for four years. In December, 1957, Mrs. Traca entered CARS Medical Centre in Vancouver where she remained until May, 1958, and during this time received the benefits of all phases of CARS treatment - physiotherapy, nursing, surgical manipulation, occupational therapy, and rehabilitation.

At the time of her admission to the Centre, Mrs. Traca was unable to walk. Both her knees were bent and stiffened.

Upon her release she was able to walk, and her arms and shoulders, which were also affected by arthritis, had improved to the point where she was able to assume the care of her home and family.

Today, although she still must take drugs for the pain injections to keep her joints movable, and receives treatment from the local CARS physiotherapist under direction from her physician, Mrs. Traca does most of her housework without assistance, and capably cares for her two young children, age 3 and 5. Mrs. Traca feels that the children understand her condition, and have learned more quickly to do things for themselves.

Although she would love to be able to dance and go bowling as she did before the onset of rheumatoid arthritis, Mrs. Traca feels she is fortunate, for in her own words, "I would be flat on my back now without the treatment I received from CARS."

The Canadian Arthritis and Rheumatism Society is a member agency of the UGN. Your contribution to the current UGN appeal will help CARS to carry on its work of treatment and rehabilitation.

CARS to canvass Zone 8 in White Rock drive

CARS physiotherapist, Miss Ann Hotter, reported a total of 723 treatments had been given at the South Surrey CARS Clinic during the summer months. The report was made at the regular monthly meeting of the Surrey Branch of CARS held at the Clinic Room in the Centennial Health Centre, White Rock, on September 26.

President, Mrs. James Black acknowledged donation from the Crescent Beach - White Rock Transfer.

Donation of taps and other plumbing material received from Emco Ltd., plumbing wholesalers at Whalley were also reported with appreciation as well as a sink donated by Mr. and Mrs. Ray Williams of White Rock with volunteer installation by Mr. J. R. Black.

A full length mirror on a portable stand, the gift of Mrs. R. C. Onkes of White Rock, was also reported.

CARS Surrey Branch have assumed responsibility for the canvassing of Zone 8 in White Rock for the current UGN campaign. Intention is to have a blitz campaign on October 13 to cover as much of Zone 8 as possible in one day.

Mrs. R. C. Miller, transportation chairman, reported that a recent appeal in the press for additional drivers to take patients to Clinic has resulted in several volunteers coming forward. Members were reminded of the tea to be held at the home of Mrs. T. Bleakley.

Afternoon tea aids CARS here

Mrs. T. Bleakley, Mrs. H. Bachand and Mrs. H. Jeffreys were joint hostesses at the afternoon tea held at the home of Mrs. Bleakley, Victoria Ave., September 30, in aid of CARS.

Display of self-help devices for arthritic patients as well as "Carscraft" items made by CARS patients in Vancouver were enjoyed.

Pottery and hasty-notes made by the patients are available at Christen's Gift Shop, and woven articles and linen place mats at Amos Dry Goods.

An excellent turn-out was realized at the tea. A draw was held during the afternoon for the hand-hooked rug being raffled by CARS, Surrey Branch. The partially finished rug was donated by Mrs. A. L. Grease; and completed by a group of ladies of the White Rock Women's Institute. The raffle was won by Mrs. G. Johnson of Loughheed, Alberta.

Proceeds of the raffle and tea amounted to \$107.00 which will be used for purchasing items for the new Clinic Room in the Health Centre.

Sand preservation plan underway at Crescent

by W. W. Hastings

The latest phase of repair and protection to the beach at Crescent is now underway by municipal work crews who are driving piles and constructing groynes at the point. This area has long been a source of worry to municipal officials and residents alike.

In the picture above can be seen the municipal pile driver being operated by Bruno Bal-back. The white mark on the post on the left shows the former beach level and from this the extent of the erosion problem can be estimated.

According to Municipal Engineer Hugh Buckley the problem consists in constructing a wall and groynes which will stop further erosion and at the same time trap new sand washed in by the tide.

Mr. Buckley has designed a grid consisting of a low sea wall connected with a number of low groynes through which the water can escape leaving the freshly deposited sand. This wall and the groynes can be extended upwards as needed by the addition of more planks as the area gradually raises itself. By this means Mr. Buckley hopes that the entire area can

be restored to what it was some years ago. Old timers can remember when the beach was big enough and wide enough for picnics to play ball there. It is intended to trap enough sand to restore this condition.

Some residents are sceptical however, claiming that there is no enough sand being brought in by the tide at the present time to make this possible. These residents point out that formerly, erosion was taking place in other places around Semiahmoo Bay and that it was the sand from this erosion which was brought to Crescent. Now that most of this erosion has been stopped they claim there will not be enough sand available to make much difference.

Other residents take a different view and point out the benefit which the existing groynes have brought, and in support of this view they point to the places where the sand has already been raised in some places to the full height of the groynes.

Sunnyside

Mr. and Mrs. Kanuka of Vancouver are newcomers to Sunnyside and are residing on Best Road in the home formerly owned by Mrs. Mary Campbell and family.

Mr. and Mrs. Paul Bonneville have taken up residence in the home they have purchased at 2372 King George Highway.

Mrs. Hill of Saskatoon, is visiting at the home of her son in law and daughter, Mr. and Mrs. Wilson Rodgers of Sunnyside.

Mr. Van Aughten of Sunnyside Road was the winner of the potato contest put on by the Sunnyside Garden Club this summer. The weighing in showed 75 pounds yield from a single potato. Besides the fun of the potato contest, there was a variety concert with musical numbers and dancing.

Mr. and Mrs. A. Franklin of Oliver Road are the proud parents of a son, little David William, arrived at White Rock Hospital on September 30.

J. M. Arthur has sold his home at 2340 King George Highway and has gone to make his home in Burnaby. The new owners are Mr. and Mrs. H. Strum.

Mrs. McIntosh and her daughters Miss McIntosh and Mrs. Kristenson have moved from King George and Clow to Sunnyside Road.

Mr. and Mrs. Robbins and children of the Cheerio Cafe are moving from Sunnyside. Mr. Robbins is now a patient in Shaughnessy Military Hospital.

Prov. president to open bazaar

Mr. Charlie Bryant, provincial president of the Senior Citizens' Association, will be on hand to officially open the annual pre-Christmas bazaar to be staged by the White Rock Senior Citizens' branch.

The bazaar will be held on Wednesday, November 4 in the banquet room of the Silver Moon from 2 to 5 p.m.

Both Mr. Bryant and his wife are gifted musicians and it is expected they will provide some splendid musical entertainment.

President of the White Rock branch, Mr. V. W. Plant, reports everything is well in hand for the mammoth affair.

Mrs. E. Everest has been named general convener. Stalls will include fancy work, white elephant, home cooking and plants.

Tea will be served and a tea cup reader on hand. A door prize will also be featured.

City PTA names new officers

Mrs. Jean Campbell was returned as president of the White Rock PTA at the annual election and installation of officers held at the group's first fall meeting, Wednesday evening, September 30. Some 80 parents were in attendance.

Mrs. E. McEchron was named vice president; Mrs. W. W. Bevans, secretary; Mrs. W. Ballard, treasurer; Mrs. L. Long, social convener; Mrs. J. Harris, program convener; Mrs. Margaret Hill, pre-school convener; Mrs. Ruth Kendall, resolutions; Principal J. Allen, staff representative; Mrs. Harnusch, membership and Mrs. Ray Stewart, publicity.

Volunteer mothers who indicated they would be willing to help in the carrying on of the PTA activities were Mesdames Ward, Prior, Andrews, Thomas, Anderson, Burrows, Leonard and Derpak.

Miss Teeple's class won the attendance award.
